SIGNIFICANCE OF EAST AFRICAN REGION PHARMA MANUFACTURING MARKETS

- Exploring business potential of the highly promising pharma manufacturing industry in region
- The pharma economy of the regional pharma manufacturing markets is rapidly growing
- Huge business potential to do business for long terms
- Serious & technically sound pharma professionals

ABOUT AFRICA PHARMA MARKETS

East Africa: The Next Pharmaceutical Manufacturing Platform. Africa is the only pharmaceutical market where genuinely high growth is still achievable, value of Africa's pharmaceutical industry jumped to USD 28.56 billion in 2017 from just USD 5.5 billion a decade earlier. That growth is continuing at a rapid pace: we predict the market will be worth USD 56 billion to USD 70 billion by 2030. It is opportunistic for multinationals and pharmaceutical companies seeking new sources of growth as developed markets stagnate while patients will also gain access to medicines previously unavailable on the continent.

The PHARMA CONFERENCE parallel to the EAST AFRICA PHARMA EXPO 2023 was very well organized. The so many variety of exhibitors displayed their latest technology products and services. I am proud to be one of the Delegate at such informative and interactive gathering of the EAC pharma industries. Overall presentation was wonderful to share the knowledge with us, and we have learnt a lot. We also welcome that this Exhibition moves among the Africa continent and would like to welcome the organizing of the Exhibition at Uganda..!

Dr. David Nahamya
Secretary to the Authority & CEO
National Drug Authority (NDA)
Kampala, UGANDA

I am honored to be a part of the 7th EAST AFRICA PHARMA EXPO 2023 since it has brought strongest Drug Regulators – PPB (Kenya), NDA (Uganda) and TMDA (Tanzania) with the local pharma manufacturers and pharma fraternity of Kenya and the East Africa Community (EAC) at one common platform. This forum can bring in the API and Excipient manufacturers in EAC to initiate their manufacturing facilities. I can see the improvements in the pharma manufacturing plants in Kenya, which is very much significant.

Mr. Patrik Proches
TMDA, TANZANIA

The 7th EAST AFRICA PHARMA EXPO 2023 at Nairobi is supporting the Make in Kenya pharma products policy to share the information and knowledge on latest pharma manufacturing technologies and services since 2012. The entire event – international exhibition and the Pharma Conference had remained highly resourceful to access the latest updates to scale up our local manufacturing. FKPM supports and lobby the robust, dynamic and competitive local pharmaceutical industry. FKPM is engaged towards quality, safety and affordable medicine products by jointly working with the developing partners. FKPM anchors the Universal Health Coverage (UHC) program and today, all the Member Companies of FKPM manufacture almost all essential medicines locally ensure every citizen has quality, safe and affordable medicines locally. In last 10 years, FKPM members have done investments worth USD 150 million in infrastructure, market developments, related to quality related activities. These make Kenya a pharma manufacturing hub in Africa. The Kenya pharma industry is increasing at the growth rate of 9% per annum. The Kenya pharma industry has generated 20,000 diverse jobs especially for highly and semi-skilled professionals. Kenya has access to the market of more than 700 million people in the EAC. In next five years, we expect the Kenya pharma industry will be exporting USD 700 mn pharma products.
